Education

IMS Institute of Technology Ghaziabad, UP
B.Tech in Computer Science (CGPA: 9.1) *Sep. 2023 – Present*

Saraswati Balika Vidhyalaya Gorakhpur, UP
Class X:95.4%, Class XII:87.8% (CBSE Board) *2010 – 2021*

Experience

Rishihood Foundation June 2026 – Present
Data Analyst Intern *Sonipat , India*

- Performed Acceptance Criteria (AC) testing to validate features against business requirements, and worked with Google Analytics 4 (GA4) and Google Tag Manager (GTM) to validate event tracking and analyze user behavior.
- Created and maintained Metabase dashboards using SQL to analyze student and business data, generating reports to support business decisions while collaborating with product and engineering teams to verify feature implementation and resolve issues.

Projects

Multi Agent AI Research System | *Python, LangChain, OpenAI, Streamlit, Tavily Search* July 2025 – Dec 2025

- Developed an LSTM-based aircraft engine predictive maintenance system using NASA turbofan data (100+ engines, 50,000+ sensor records).
- Predicted Remaining Useful Life (RUL) with **95% accuracy** and reduced false maintenance alerts by **28%**.

Aircraft Engine Predictive Maintenance System | *Python, TensorFlow, Keras, LSTM, pandas, Scikit-learn* July 2025 – Dec 2025

- Developed a multi-agent AI research platform using LangChain with Search, Reader, Writer, and Critic agents to automate web research, content extraction, report generation, and quality evaluation.
- Integrated LLMs, web search APIs, and a Streamlit interface to generate structured, real-time research reports from user queries through an agentic workflow.

Job Quest Skill Analyzer | *Python (FastAPI), React, spaCy (NLP)* May 2025 – Aug 2025

- Built an NLP-powered ATS resume analyzer using spaCy and pdfplumber that extracted 50+ technical skills from resumes with approximately 90% parsing accuracy.
- Designed a skill-matching and ATS scoring engine using RapidFuzz, achieving approximately 85–90% keyword matching accuracy, and integrated it with a React + FastAPI dashboard for real-time skill-gap visualization and personalized learning recommendations.

Achievements & Certifications

- **Oracle OCI Foundations Associate (Oct 2025):** Gained foundational knowledge of OCI cloud infrastructure, covering core services in compute, storage, networking and databases
- **IBM Data Analyst Professional Certificate (Nov 2025):** Mastered core data analysis techniques including requirements gathering, process mapping, stakeholder analysis, and using SQL for data extraction
- **IBM Artificial Intelligence Fundamentals (May 2026):** Gained foundational knowledge of Artificial Intelligence concepts including Machine Learning, Neural Networks, NLP, Computer Vision, and AI applications.
- Course Certificate for Introduction to Cyber Security.
- **PowerBI using AI Workshop (Aug 2025):** Mastered advanced SQL techniques and AI integration.
- **SQL using AI Workshop (Aug 2025):** Mastered advanced SQL techniques and AI integration.

Technical Skills

- **Programming Languages**: Python, SQL, Java, HTML, CSS, C + +
- **Frameworks & Libraries**: React, Node.js, FastAPI, pandas, NumPy
- **Developer Tools**: Git, Visual Studio Code, PyCharm, Power BI, Tableau
- **Soft Skills**: Time Management, Communication, Teamwork and Cooperation, Problem Solving
- **Databases:** MySQL, PostgreSQL
